Sight Restored.

Mr. A. K. Hawkes: Dear Sir-About one year ago my sight began to fail, with the usual symptoms, viz: after reading for a short time my eyes became confused and there seemed to be a dimness before them, also accompanied with pains in the eye ball. Being satisfied that glasses were impera-tively demanded, applied to you for them, and, I am happy to say, with wonderful results, for after having worn your crystalized lenses for a short time my eyes regained their accustomed strength, and I can now read the finest print for hours with perfect ease without glasses.
